University of Victoria
Restoration of Natural Systems Program

ER400: Seminar in Environmental Restoration

Course Syllabus

Description:
ER400 consists of the ER390 presentation and a portfolio that is a compilation of the major projects from ER311, 312A, 312B plus one elective to be determined in consultation with the RNS Program's Academic Administrator. The ER390 presentation is usually made to one of the partners or organizations the student worked with during their project. Other possibilities include presenting at a meeting of a volunteer group or at a regular meeting of a non-governmental organization active in the restoration area.

Submission Deadline:
A copy of the PowerPoint Presentation and the completed portfolio must each be submitted to the Academic Administrator by either **April 1, August 1, or December 1,** depending on the term of registration.

ER 400 must be completed within the term of registration and cannot be extended to subsequent terms. If you cannot complete ER 400 within the current term, please drop the course and re-register in a future term.

Evaluation:
If the presentation and portfolio are completed satisfactorily, the Academic Administrator will assign a grade of "Complete".
