

5 things to know about PROJECT MANAGEMENT

1 Project management is about people.

Only humans can understand how other humans approach decision-making on a project.

2 Project managers understand how to embrace risk.

Project management can bring us a skill set to help manage risk and make it work for us instead of against us.

3

Great communication is key for successful projects.

Miscommunication is a natural human experience and it takes our authenticity to get the message across.

5

Project management transcends industry.

Everyone can benefit from learning about project management to maximize our work, leverage team potential and improve work flow.

4

Collaboration leads to better work.

When we join together and leverage our subject matter expertise as a team, we all do better work.
