Improve your English and earn a valuable business credential from one of Canada's top universities!

As a student in this innovative program you’ll prepare for a business career by:

• Perfecting your English skills
• Earning a Diploma in Business Administration (DBA)

This unique combination of English and Business programs is the perfect option for recent high school graduates who want to learn practical English and earn an internationally-recognized business credential in a short period of time.

Advantages of this program:

• Language skills and confidence built during your English programs provide a foundation for your business studies while helping you adjust to student life at UVic
• Business courses such as Organizational Behaviour, Financial Accounting and Strategic Leadership teach you how to make business decisions using the case study method
• An intensive DBA schedule that alternates intensive courses with study breaks during which many students work part-time.
• Dedicated instructors with a wealth of real-world experience
• Eligibility to apply for a post-graduate work permit in Canada upon completion of the DBA
• Earning a business credential from the University of Victoria, which is ranked in the top 1% of universities worldwide
